

ALWAYS

Your presence is worth more than gold,
'Cause nothing is brighter than you.
I need you to light up the road,
If you and I fuse into one,
I know you'd be proud of the move.
I'm aware that I left you alone,
You know what I did yesterday —
Closed my eyes the whole damn day
So I can keep my mind on you.
I need you now more than before,
Never seen you let me down.
And friends? Well, I don't got too many.
My faith is restored, my love goes beyond.
You told me it was bigger than us.
Imagine we all be together,
Making it better — hit up your phone
And please call me later.

Refrain:

Always
Too late(would you)
Make way
Always (never)
Too late(would you)
Make way

They think that I'm sinking or drowning,
I think they don't know I can swim.
And you felt that I needed a break,
I couldn't tell my people to wait.
You know now it's St-Mich that raised me,
Where the pastors preach on the daily.
You are the one I can trust,
There's not much you can trust in the world.
Told you I was coming for you,
Pulling you closer to me.
Through all of the highs and the lows,
I know you will stay next to me.
You know all the weight that I carry — and just by your presence
I feel much lighter.
You lift me higher — all of my love is now given to you,
I feel renewed when I'm with you.

Outro

Glad we've found each other
You got me blazing
Its history in the makin yup
Your energy surrounds me,
You keep me floating
A hidden path is clearing now,
